

## The Sealant and Waterproofing Association Trillium Award

The SWA is proud to offer its members the opportunity to present their projects through its SWA Trillium Award Program. This program provides an excellent platform to showcase our member companies.

“Trillium” was chosen as the name of the awards program because it defines the key submission components of our award; the collaboration between Contractor, Manufacturer and Allied Professional. What makes this program unique is the partnership requirements we have put forth. All submitted projects must have been a cooperative effort between an **SWA Contractor, SWA Manufacturer, and SWA Allied Professional member (Architects are an exception)**. All involved must be members before submitting the application.

This year we will have three categories for award:

- Existing Building Small Project;
- Existing Building Large Project (i.e. total project cost >\$500,000); and
- New Construction.

Entries are to be submitted by email to the Sealant and Waterproofing Association at [ckebez@tcaconnect.com](mailto:ckebez@tcaconnect.com) no later than **September 19, 2025**. Please be sure to include **“SWA Trillium Award Submission”** in the subject line. The entries that meet the stated criteria will then be judged by a panel chosen by the SWA Board of Directors. Awards will be presented at the Annual General Meeting.

The SWA Trillium Award is intended to be a great honor within the Association. It provides recognition to fellow industry professionals and it also comes with considerable benefits. The award can be displayed with pride. In addition, there is the opportunity to have the winning project presented at one of the association’s technical seminars and recognized in the association’s email updates to all members as well as on the SWA website.

Recipients of the SWA Trillium award also provides the opportunity to receive public validation on work well done and demonstrates collaboration with other members within our very challenging industry. We feel this program is an excellent way for the industry to get together and appreciate a successful job well done in unity.

We encourage everyone to partner up with **fellow SWA members** to submit your projects to the SWA Trillium Award Program. We look forward to reviewing all submissions.

## **Trillium Award Terms and Conditions**

The terms and conditions of the Award are as followed:

**Judging Criteria:** Entries are judged based on the degree of collaboration with the project team that lead to a positive outcome. This may include, but is not limited to design solutions, complexity, innovation, sustainability, safety, environmental impact, challenges/solutions, quality control, etc.

A panel of judges, consisting of industry professionals will be established by the SWA Board of Directors. In the event of conflict whereby a judge is associated with a submitted project, the judge shall abstain from voting and an alternate judge will take his/her place on the panel.

**Eligibility:** The Award specifically promotes the use of the SWA membership partnerships. Only those projects involving a collaborative team approach, using **one member from all the member classes, Contractor, Manufacturer, and Allied Professional**, will be considered. Projects must be at least one year old from the date of completion and not more than 5 years old from date of submission. Only those projects involving active members shall be eligible for submission.

**Deadline:** The deadline for submission is **September 19, 2025**, via email to [ckebezes@tcaconnect.com](mailto:ckebezes@tcaconnect.com)

**Recognition:** Winning projects will be announced at SWA's Annual General Meeting. Each member of the project team will receive the "SWA Trillium Award" plaque at the AGM. The winning project will also be published on SWA's social media and website. The winning project team may have the opportunity to present the project at an upcoming SWA technical seminar.

**Use of award:** Applicants agree to all terms and conditions of the award program and as such permits SWA to use the project in any promotional activities. Applicants shall obtain a signed authorization form from all necessary companies involved in the project, but not limited to the owner of the property where the project is located, the general contractor, manufacturer, and allied professional.

**Amendments or modifications to the award:** SWA reserves the right at its sole discretion to change the terms and conditions of the award.

**Hold Harmless and Indemnity:** The submitter shall hold SWA, its officers, directors, guests, employees, agents, and any other entity acting for or on its behalf (hereafter referred to collectively as its "Affiliated Persons") free and harmless and agrees to indemnify SWA and its Affiliated Persons from any claim, loss, cost, liability, damage or cause of action that may occur whatsoever (including all costs, expenses, legal fees and expert fees) from or in any way related to the use or designation has having received the SWA Trillium Award or the participation in any manner with respect to this Program.
